

English Setter Health Survey 2021

This is the most important survey on English Setter health in the UK for many years. We need you to tell us about your English Setter(s), even if they are in perfect health we need to hear from you! The survey is anonymous, but the results will inform the breed's health plan. The survey can be accessed by clicking the link

<https://www.surveymonkey.co.uk/r/ESHS2021>

The English Setter Health Committee is made up from representatives of each of the breed clubs. The Survey has been developed with support from the Kennel Club. If you have any questions please contact Simon Pitts, Breed Health Coordinator. Simonpitts@wandsfell.co.uk
